Commissioners Daly, Luke & Melton,

I wish to express my strong support for the SilverStar efforts to obtain approval of a new Town Center District zoning for mixed-use development in the Sunriver Mall.

Although *I/we* live outside of Sunriver, *I/we* utilize and patronize the merchants in the Sunriver Mall. Over the years, while we have seen growth and modernization in our community, additional newly developing communities and the upgrading of other facilities in Sunriver, we have seen the Mall continually deteriorate. None of the previous owners of the Mall have done anything to maintain, modernize or revitalize it. As a result, the buildings have become aged, are failing, and are in very bad shape. The Mall has become less inviting causing a large turnover of merchants. Conditions have worsened to the point that making repairs to the existing Mall will not make a difference.

I support SilverStar's efforts to reverse the deterioration and to rebuild and revitalize the Mall into a place that is attractive to all. They have brought the resources and planning to make the major changes necessary to rejuvenate the Mall as a mixed-use development and to make it a new economic and social hub of south Deschutes County.

In order for them to proceed, the zoning must be changed. Therefore I strongly urge you to approve SilverStar's application for a zoning change.
